Engineering Drawing Line Conventions A Guide for Engineering Communication and Technical Drawings

LockwoodSTEM.org

LS-REF-003

Why Line Conventions Matter

Engineering drawings are a universal language used by engineers, technicians, and manufacturers.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

LockwoodSTEM.org

Object Lines

Object lines show visible edges and surfaces. They are thick, dark, and continuous.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

LockwoodSTEM.org

Hidden Lines

Hidden lines show features not visible from the current view. They use evenly spaced dashes.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

Centerlines

Centerlines identify axes of symmetry, hole centers, and circular features.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

Dimension Lines

Dimension lines communicate measurements using arrowheads and numerical values.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

Extension Lines

Extension lines indicate the exact feature to which a dimension applies.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

Leader Lines

Leader lines connect notes, callouts, and specifications to a feature.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

Practice Activity

Identify line types in aerospace brackets, wing ribs, and mounting plates.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards

LS-REF-003

Application Challenge

Create a multiview drawing using proper line conventions.

Key Concepts

- Aerospace engineering drawing example
- Student practice and review
- Technical communication standards
